

The Hubzero logo is displayed in a bright green color. It features the word "hubzero" in a lowercase, sans-serif font. The letter "b" is stylized with a circular cutout in its center. The background of the slide is a dark grey-blue with a complex network of thin white lines and small dots, resembling a globe or a data network, with a larger, faint version of the Hubzero logo centered behind the text.

Community Meeting

April 2019

Agenda

1. 2019 Roadmap & Project Updates
2. HUBzero® Foundation Slack
3. Google Analytics
4. HUBzero® Branding
5. Additional Business

2019 Roadmap - Recent Changes

1. Tools
 - a. Started working with the nanoHUB team on implementing JupyterLabs
2. Framework
 - a. New database drivers for MariaDB, Percona
 - b. More query building methods
 - c. Added log() method to migrations for better reporting on what changes are being made
3. General CMS
 - a. Minor admin template reworking and general accessibility improvements
 - b. Query fixes and DateTime fields' default changed to NULL to comply with MySQL strict mode
 - c. Implemented changes to com_courses with help from MyGeoHub
 - d. Overhaul of Administrator Media Manager
 - e. Started adding common Bootstrap class names to form elements
 - f. Moving inline CSS & JS to external files (in prep for compliance to stricter Content Security Policy)
4. System Administration
 - a. Adding/revising migrations for cleaner install

Additional changes: <https://help.hubzero.org/documentation/220/releasenotes/>

2019 Roadmap - Forthcoming Changes

1. Projects
 - a. Change public/private to standard access field to utilize access groups/view levels
 - b. "Browse" page redesigned
2. Publications
 - a. UI/UX overhaul - Alpha version to PURR by September 2019; then will release to all hubs
 - b. Merge Resources into Publications (purely a data move, not a feature change) by December 2019
 - c. Reducing hard-coded dependencies on com_projects from com_publications
3. General CMS
 - a. 2.3 tentative target release for summer 2019 (requires PHP 7)
 - b. Started investigating Discourse for OneSciencePlace
 - c. Stop including Joomla libraries -- must be included manually as needed (slated for full deletion in 2.3)
 - d. Upgrade jQuery to 3.3.1 and jQuery UI to 1.12.1, upgrade D3 to 5.9.2
 - e. LaTeX math formulas use MathJax -- removes ~3 Gb dependency on hub install
4. System Administration
 - a. Docker-based install of HUBzero

HUBzero® Slack Channel

The screenshot shows a Slack interface for a channel named #random. On the left sidebar, the channel list includes # administrator, # developer, # general, # knowinnovation, # random (highlighted), and # userguides. The main content area displays a tweet from HUBzero (@hubzeroplatform) posted on Wednesday, April 17th. The tweet text reads: "Save the date for our next #hubzeroplatform Community Meeting! We will be discussing on April 24th at 2 pm EDT the state of the HUBzero roadmap, using @SlackHQ as a community forum, and other project updates from the team. Save a spot on your calendar: <https://t.co/sBGdRF5wPz>. <https://t.co/f2aeyvxFHG>". Below the text is a video thumbnail with the text "HUBzero® Community Meeting 04/28 @ 2pm EDT". The bottom of the screen shows a message input field with a plus sign on the left and @ and emoji icons on the right.

Google Analytics

The screenshot displays the Google Analytics Admin interface. The top navigation bar includes the Analytics logo, account information (All accounts > HUBzero.org), and a search bar. Below the navigation bar, there are three main sections: ADMIN, USER, and PROPERTY. The ADMIN section is currently active, and the '+ Create Account' button is highlighted with a red box. The USER section shows the 'User Management' option. The PROPERTY section shows the 'View Settings' option. The main content area is divided into three columns, each with a list of settings and options. The first column (ADMIN) includes Account Settings, User Management, All Filters, Change History, and Trash Can. The second column (USER) includes Property Settings, User Management, Tracking Info, and various linking options. The third column (VIEW) includes View Settings, User Management, Goals, Content Grouping, Filters, Channel Settings, Ecommerce Settings, and Personal Tools & Assets.
